

STATE OF NEW HAMPSHIRE

INTER-DEPARTMENT COMMUNICATION

DATE

May 29, 1980

FROM

John F. Bridges
Director

AT (OFFICE)

Division of Safety Services

SUBJECT

Movie Location, Squam Lake

TO

Marty Leighton
Resources and Economic Development

Relative to our conversation in my office on May 22nd, I have contacted Debbie Cooper of the Attorney General's office to see if there is any legal method that I can keep boats out of a specific area, and although I don't see this as a problem, she will get back to me.

As Francis O'Donnell and I suggested, it would be my recommendation for the movie company to post three uniformed individuals, either in a police uniform or a Boat Inspector uniform, in their own personal boats, at strategic locations, equipped with radios furnished by the movie company. Our Division would work closely with them, giving them direction and support.

I have enclosed a list of our three Boat Inspectors who could fill in on their off-time for the movie company, and I have included the names of two O'Donnell boys, the older, Mike, having considerable police experience as well as experience with the New Hampshire Fish and Game Division. It would be my recommendation that he be supervisor, scheduling the men and manning one of the boats. I would suggest paying him approximately \$7.00 per hour and \$5.00 per hour for use of his boat. The remainder of the men I would suggest paying \$5.00 per hour plus \$5.00 per hour boat rental.

If you or the movie company have any questions or problems, feel free to contact Frank O'Donnell or myself at any time. I have also taken the liberty of enclosing on the list Frank O'Donnell's home address and phone number, as he lives so close to Squam, I am sure that he could be of some help in his line of State duties.

Wishing you well in your venture.

/Sn
